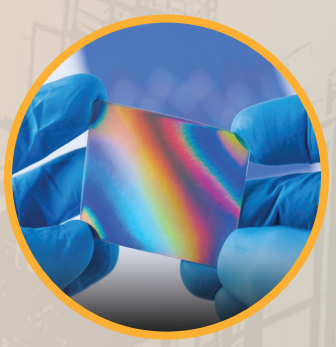
Transforming Carbon Black for Tomorrow's Innovations

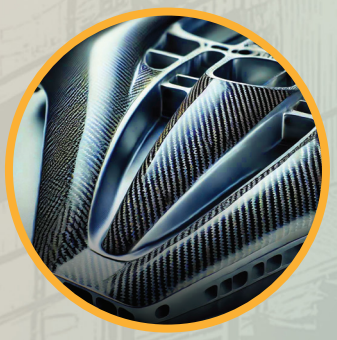
What Will Your Pellets Power?

Green Tires

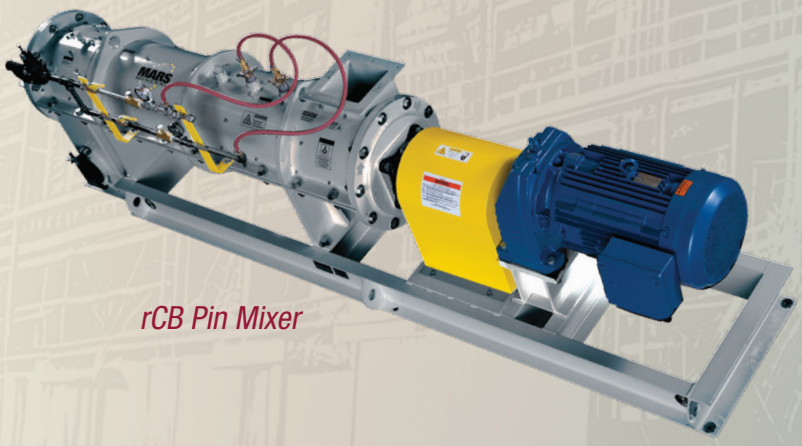
EV Batteries



Graphene Coatings



Advanced Polymers



rCB Pin Mixer

Today's output is tomorrow's feedstock. Let Mars Mineral help shape it.

Whether you're working with rCB, pyrolytic carbon black, virgin blends, or sustainable alternatives, Mars Mineral's Pin Mixer technology helps convert fine powders into high-performance pellets. The result: valuable feedstock for a wide range of downstream applications.
